

# What you need to know about Overdrafts & Overdraft Fees

An **overdraft** occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have **standard overdraft practices** that come with your account.
2. We also offer **overdraft protection plans**, such as a line of credit or a link to a savings account, which may be less expensive than our standard overdraft practices. To learn more, ask us about these plans.

This notice explains our **standard overdraft practices**.

### ... What are the standard overdraft practices that come with my account?

We **do** authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Automatic bill payments

We **will not** authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- Everyday debit card transactions

We pay overdrafts at our discretion, which means we **do not guarantee** that we will always authorize and pay any type of transaction.

If we do **not** authorize and pay an overdraft, your transaction will be declined.

### ... What fees will I be charged if USSCO Federal Credit Union pays my overdraft?

Under our standard overdraft practices:

- We will charge you a fee of **\$35** each time we pay an overdraft
- There is **no limit** on the total fees we can charge you for overdrawing your account
